

# HEOS SUBWOOFER

## BOOST THE BASS.

Shake your world with movies and music – wirelessly. The HEOS Subwoofer adds seismic bass to all your sound. With its powerful amplification and optimized drivers, it works with the entire HEOS range, from any HEOS speaker to HEOS Bar, HEOS AVR, HEOS Amp and HEOS Link.

2.1 speaker setup

5.1 speaker setup

## ALWAYS A PERFECT MATCH.

You can combine the HEOS Subwoofer with another wireless HEOS speaker to give your sound more deepness. Or pair it with the HEOS Bar and two HEOS speakers as rear channels. You'll get a fully wireless 5.1 cinema surround sound. And you can be sure, anything in-between works just fine as well.

## CLEAR AND DISTINCT BASS.

Two custom-made 5-1/4inch drive units in combination with sophisticated class D amplification deliver clean and clear, yet punchy bass. The proprietary DSP algorithms provide optimized low frequency response across the entire dynamic range. Within the HEOS App, you find advanced settings for different configurations, like the dialog enhancer and the night mode, which are integrated in the HEOS Bar. If used together, HEOS Subwoofer adapts the settings.

## PERFECT SOUND MADE SIMPLE.

Setup and operation of the HEOS Subwoofer are a matter of minutes. Just connect it to your home network and any other HEOS device. In the next moment you shake your world with dramatic bass. Control all your sound via the HEOS App. It's really as simple as that.

## KEY FEATURES

- Dual Custom 5-1/4 inch drivers and sophisticated, high power Class D amplification
- HEOS Subwoofer can be combined with HEOS Bar, HEOS AVR, HEOS Amp, HEOS Link and any HEOS speaker (single or stereo pair)
- Connect to your wireless network quickly and easily. HEOS Bar supports the latest 802.11 networks (including dual band „N“, „AC“) for the most reliable network connection.
- Factory-optimized crossover option for each configuration
- Built-in HEOS network technology for access to the most important online streaming services, and stunning multi-room experience with other HEOS products
- Advanced settings like crossover and phase for advanced users
- Supports all major streaming formats, including high resolution audio: DSD (2.4, 5.6 Mhz), FLAC, WAV, ALAC (192 / 24), MP3, WMA, AAC File Playback (USB / Network)
